

Behari Lal Engineering

Company Information

Incorporated in 1995, Behari Lal Engineering Ltd. is an integrated iron and steel manufacturing company specialising in customised engineering solutions. The company manufactures precision-engineered components for critical industrial applications, including metal rolls, engineering castings, alloy steel products, forging ingots and shafts.

- **Metal Rolls** across grades such as alloy cast steel, alloy steel base adamite, graphitic steel, and S.G. iron pearlitic.
- **Engineering Castings** ranging from 500 kg to 20 MT for industries such as steel, iron, mining, aggregate crushers, power, and sugar.
- **Alloy Steel Products**, including carbon, alloy, and stainless steel bars in sections such as rounds, flats, hex, and round corner squares, with sizes from 6 mm to 230 mm, along with tool and valve steel.
- **Forging Ingots and Forged Shafts/Blocks** for use as raw materials in open-die and closed-die forging applications.

As of March 31, 2026, the company has catered to 1825 domestic and international customers. Its customer base includes Amba Shakti Industries, BMW Industries, Shyam Metalics and Energy, Laxcon Steels, MSP Steel & Power, Jai Balaji Industries, Propel Industries, and Metso India, among others.

The manufacturing operations comprise two units in Mandi Gobindgarh, Punjab. As of May 31, 2026, the company's order book stood at Rs 1,785.69 million.

Competitive Strengths:

- Long standing relationships with a large number of customers spread across a wide array of end-user industries
- Diversified product portfolio catering to varied application industries
- Strategically located Manufacturing Facilities with advanced equipment and robust overlapping processes
- Experienced promoters and management team
- Track record of financial performance and consistent growth
